American Education Corporation/A Plus
 Attn: Monica Davis

Weslaco ISD would like to commend A Plus Courseware technology-based educational curriculum. It has been an effective and successful educational resource tool which has enhanced our students' academic achievement, inclusive, graduation course completion rate.

I, Roel Caceres, currently employed with Weslaco I.S.D. at Weslaco East High School, have been in the educational field for a total of 29 years, of which I taught secondary science for thirteen years and sixteen years as a migrant/credit recovery teacher. Weslaco East High School currently utilizes the A Plus Courseware in the migrant computer lab and the credit recovery labs to assist students in recovering credits, consolidating grades and recovering six weeks grades.

The A Plus Courseware is used for student academic intervention on a daily basis in the areas of credit recovery, student late enrollment and student early withdrawal and for migrant students that require consolidation of grades due to migration and/or extenuating circumstances. In addition, the A Plus Courseware is also implemented during our summer school program for credit recovery which has proven to be quite effect and successful.

The A Plus Management System is user-friendly and readily accessible for aligning it to the district and campus curriculum timelines, per semester and per six weeks. Our A Plus Courseware curriculum is TEKS curriculum based. A unique quality of A Plus is that it affords the teacher the capability of editing, modifying and creating lessons. Presently, our district has been involved in becoming the author of the state required Spanish 2 course. Additional, components of the program include enhancing the lessons by adding videos, sound effects, pictures, and multimedia.

The students that have participated in the A Plus Course Curriculum Program have demonstrated success in completion of the courses that they attempted to meet the four year course graduation requirement.

Weslaco ISD highly regards your commitment to meeting the diverse academic needs of our students and for joining our effort towards "Creating New Visions: Reaching New Horizons".

Cell Phone: 956-369-3248

Sincerely

Roel Caceres, Migrant/Credit Recovery Teacher

Award Recipient:

- *2008 National Association of State Directors of Migrant Education
Teacher of the Year
- *2006 Texas Migrant Education Distinguished Lifetime Service Award
